

R PermutedLinearStatistic

```
graph LR; A[R PermutedLinearStatistic] --> B[C PermutedLinearStatistic]; A --> C[ncol]; A --> D[nrow];
```

The diagram illustrates the relationships between the R PermutedLinearStatistic object and its associated C PermutedLinearStatistic object and dimensions. The R PermutedLinearStatistic object is shown in a grey box on the left. Three arrows originate from its right side: one points to the C PermutedLinearStatistic object (white box) at the top right, one points to the ncol variable (white box) in the middle right, and one points to the nrow variable (white box) at the bottom right.
